FORD BRONCO II FOR 1988

est-built American trucks seeen years run ning. For the past seven consecutive years Ford quality has led all other American automotive companies. That's based on an average of owner-reported problems in a series of surveys of \$1-87 models designed and built in North America. It's the result of our firm commit ment to the integrity of the whicles we produce.

Over the past several years, that commitment has led us to new state-of-the-art product developments tooling and manufacturing procedures. Mos

our people — production workers and management — everyone pul ing together with the goal of pro ducing the right cars and trucks for your needs today. And the right car or truck is one that's designed and built with the highest quality The built-Ford-tough Bronco IIs

The built-Ford-tough Bronco IIs you'll read about here are testaments to that quality effort. Available in both 2-wheet drive and 4-wheet drive versions, they're engineered to provide outstanding performance and value in an expanding market. All Bronco IIs have V-6 power with multi-port electronic behave V-6 power with multi-port electronic anti-lock brake systems. Our possibility to be a solution of the power of the power lock brake systems. Our possibility and our customer-driven attitude, are making the definitive statement about Ford quality and our customer-driven attitude.

And the effort is ongoing. Constantly striving for new and better ways of serving our customers we have looked toward the global marketplace

Our abundance of worldwide resources will help us continue to produce high-quality, affordable products.

A lot has been happening at Ford over the past several years. It's all summed up in a familiar little credo which has come to mean exactly what Ford Motor Company is all about Qualituis Job 1

FORD BRONCO II

Ford quality has led all other American automotive companies. That's based on an average of owner-reported problems in a series of surveys of '81-'87 models designed and built in North America. It's the result of our firm commitment to the integrity of the vehicles we produce.

Over the past several years, that commitment has led us to new state-of-the-art product developments, tooling and manufacturing procedures. Most important, we've formed a stronger partnership with

our people - production workers and management - everyone pulling together with the goal of producing the right cars and trucks for your needs today. And the right car or truck is one that's designed and built with the highest quality.

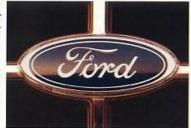

The built-Ford-tough Bronco IIs you'll read about here are testaments to that quality effort. Available

est-built American trucks seven years run- in both 2-wheel drive and 4-wheel drive versions, ning. For the past seven consecutive years, they're engineered to provide outstanding performance and value in an expanding market. All Bronco IIs have V-6 power with multi-port electronic fuel injection. They also have a sophisticated rear anti-lock brake system. Our products, backed by a 6-year/60,000-mile powertrain warranty, are making the definitive statement about Ford quality and our customer-driven attitude.

And the effort is ongoing. Constantly striving for new and better ways of serving our customers, we have looked toward the global marketplace.

Our abundance of worldwide resources will help us continue to produce high-quality, affordable products.

A lot has been happening at Ford over the past several years. It's all summed up in a familiar little credo which has come to mean exactly what Ford Motor Company is all about: Quality is Job 1.

Some equipment shown on these pages may be optional. See options list on page 13.

ronco II XL, with its handsome list of standard features (page 13), is joined in 1988 by the XL Sport. Free-spirited Sport is easily identified by its distinctive outfitting, including a brush/ grille guard, fog lamps, black tubular rear bumper, black front bumper (in place of the standard bumper), spats and front fascia. These items are optional with Bronco II XLT as well. They're called the Sport Appearance Package.

XLT additions

XLT is the comfort/convenienceoriented Bronco II. It includes cloth and vinyl upholstery, wrapover cloth door panels with map pockets and other trim extras. Also standard are the handy Light Group (detailed on page 13), an AM/FM stereo radio with digital clock, pivoting front vent windows and more.

Versatile Bronco II

Whichever Bronco II series you choose, you can be assured of a comfortable, well-equipped vehicle, V-6 powered and fitted with an electronically controlled anti-lock rear brake system (page 8).

BRONCOLICORRAL_COM

Bronco II XLT interior in Chestnut.

ENGINEERING EXCELLENCE BRONCO II 2WD AND 4WD

BRONCOIICORRAL_COM

ord Bronco II employs today's technology to help its driver. The electronically controlled rear antilock brake system is designed to inhibit complete rear wheel lock-up under most operating conditions. Whenever rear wheel lock-up is detected, the computer processes signals and directs the pressure control valve to selectively modulate rear brake line hydraulic pressure. The result is enhanced driver ability to control braking performance (see illustration).

Spirited V-6 power

All Bronco IIs feature the 2.9 liter V-6 engine with its 140-horsepower output. It includes a multi-port fuel injection system (EFI) which is efficiently governed by the Ford-designed EEC-IV engine control computer. A sporty 5-speed manual overdrive transmission, standard, is synchronized in all gears including reverse.

When it comes to towing, Bronco II allows for a gross combination weight rating (GCWR) of 8,500 pounds and a maximum trailer weight rating of 5,100 pounds in the 2WD model (5,000 pounds in the 4WD).* A properly equipped Bronco II for this kind of towing includes the Automatic Overdrive transmission, 4.10 limited-slip rear axle, and the Super Engine Cooling Package.

The controls for the optional 4WD Touch-Drive are conveniently located in an overhead console.

Overdrive efficiency

The optional 4-speed automatic overdrive transmission (A4LD) provides a mechanical lock-up which eliminates power-wasting torque converter slippage, especially during highway travel. The electronically controlled converter clutch automatically engages during steadyspeed operation in fourth gear and the upper range of third gear.

Special shocks for a smooth ride

All Bronco II models are equipped with gas-pressurized shock absorbers designed to help maintain proper hydraulic fluid pressure, even over a rapid succession of jarring bumps. The ride is smooth under normal circumstances, yet firm enough over rough road conditions.

Manual locking hubs

The 4WD standard free-running front hubs are the manual locking type. When the wheel hubs are locked, you can shift "on the fly" from 2-wheel high to 4-wheel high and back again to suit driving conditions.

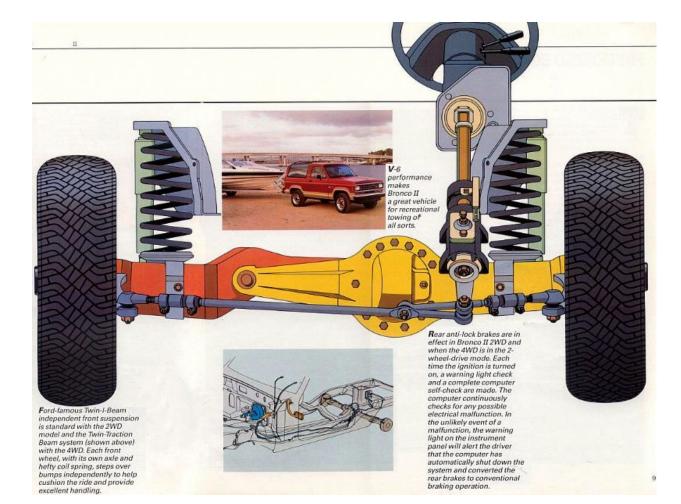

The Touch-Drive option

Touch-Drive is the ultimate convenience for 4-wheel driving enjoyment. It allows shifting "on the fly" from 2-wheel high to 4-wheel high and back at any speed just by touching a button. The automatic locking hubs engage instantly because Touch-Drive employs an innovative magnetic clutch that spins up the front drive system from zero to driving speed in milliseconds.

Two special electrical interlocks prevent possible powertrain damage that might otherwise be caused by a mis-shift between 4-high and 4-low. Shifting into or out of 4-1ow can only be done when the vehicle is either stopped or moving below 3 mph with the manual transmission clutch disengaged or the automatic

transmission in neutral.

*Reduced by passenger and cargo weight in the towing

PREFERRED EQUIPMENT PACKAGES

he Bronco II XLT at right illustrates the high level of equipment in this series. Included is Preferred Equipment Package 931A which features air conditioning at no extra cost and more (see below), making this XLT an outstanding value.

An easy way to buy

Preferred Equipment Packages are groups of popular features. By combining them, we simplify the ordering procedure. All you have to do is: (1) Decide on the trim level (XL, XL Sport, XLT or Eddie Bauer); (2) Select the Preferred Equipment Package from the chart at right that includes the features you want.

Air conditioning at no extra cost

Bronco II packages 923A, 931A and 934A contain special discounts. Order 923A and save an amount equivalent to getting air conditioning at no extra charge. Order 931A or 934A and save even more. Your dealer can explain these savings, which are based on the manufacturer's suggested retail price of the package compared to the price of the items if purchased separately.

Special Value Packages

There are also special discounts offered on certain XL, XL Sport and XLT models equipped with the fun-to-drive 5-speed manual overdrive transmission. It's like getting one or more desirable items of equipment at no additional charge (see chart at right).

charge (see chart at right).

Once you've settled on a Preferred Equipment Package or Special Value Package, you can further personalize your new Bronco II by referring to the listing on page 13. It contains the free-standing options available to you as well as a summary of notable standard features.

SAFETY AND OWNER BENEFITS

ord Motor Company strongly encourages all passengers to use their safety belts.

In Ford Bronco II, front seat lap and shoulder belts have automatic retractors. And the rear seat positions also have lap belts with retractors.

Ford urges the use of child and infant restraints. Ford's easy-to-install Tot-Guard (for children 20 to 50 pounds) and Infant Carrier (for children up to 20 pounds) are available at all Ford Dealers. If a child restraint requires a top-tether, Bronco II provides special anchorages.

WE CAN SAVE LIVES

Ford Lifeguard Design Safety Features

Vehicle operation

☐ Split service hydraulic brake system with warning light
☐ Electronically controlled rear anti-lock brake system

 □ Safety-designed radio control knobs and push buttons

Anti-theft

☐ Locking steering column with key warning buzzer (with "Park" interlock or push button for key release) ☐ Visible vehicle identification number

6-year/60,000-mile powertrain warranty

Ford's powertrain warranty covers all 1988 cars and light trucks for 6 years or 60,000 miles, whichever comes first. This limited warranty covers major powertrain components. Certain restrictions and deductible apply. Ask your dealer for a copy.

Scheduled maintenance

Here are some examples of scheduled maintenance intervals for the 1988 Bronco II. For complete recommendations, refer to the Bronco II Scheduled Maintenance Booklet.

| Engine oil and filter | each 7,500 miles | |
|------------------------|-------------------|--|
| change | or 6 months | |
| Spark plug change | each 30,000 miles | |
| Air filter replacement | each 30,000 miles | |
| Engine coolant | each 30,000 miles | |
| replacement | or 3 years | |

Participating Ford Dealers offer the Lifetime Service Guarantee, which guarantees their work on your Ford vehicle for as long as you own it. This means that the covered repair is paid for once—and never again. If it ever has to be fixed again, the repairing dealer will fix it free. Free parts. Free labor. Even if the car is kept a lifetime. It doesn't matter where it was purchased, or whether it's

Bronco II 6-year/100,000-mile corrosion protection

Bronco II's corrosion warranty coverage for body panel rust through is 6 years or 100,000 miles, whichever comes first, See your Ford Dealer for details and a copy of this limited warranty.

new or used; the work is still covered by the repairing dealer. Ask to see this limited warranty when you visit your participating Ford Dealer.

Optional Ford Extended Service Plans cover major compo-nents on new Ford cars and light trucks for longer than the vehicle's basic warranty. The cost of this added protection is so moderate that it could pay for itself the first time you need it. Your Ford Dealer has full details.

Motorcraft ® QUALITY REPLACEMENT PARTS FROM FORD

Genuine Ford and Motorcraft original equipment replacement parts meet the same high stan-dards as those installed in production.

Ford Motor Credit Company is inter-ested in helping to fill the transporta-

tion needs of every qualified buyer of a Ford product. A partici-pating dealer can arrange financing terms or a Red Carpet Lease® tailored to your circumstances. Ford Credit has offices conve niently located throughout the United States.

Ford-paid repair programs after the warranty period

Sometimes Ford Motor Company offers adjustment programs to pay all or part of the cost of certain repairs. These programs are intended to assist owners and are in addition to the warranty or to required recalls.

Technical service bulletins

All vehicles need repairs dur-ing their lifetime. Sometimes Ford issues technical service bul-letins (TSBs) and easy-to-read explanations describing unusual engine or transmission condi-tions which may lead to costly repairs, the recommended repairs, and new repair proce-dures. Often a repair now can prevent a more serious repair later.

For more information...

Ask Ford Motor Company or your Ford or Lincoln-Mercury dealer about Ford-paid repair programs and/or TSBs relating to your vehicle.

To get copies of materials for

your vehicle or the vehicle of interest to you; Call Ford toll-free at 1-800-241-3673. Alaska/ Hawaii call 1-800-241-3711 and in Georgia call 1-800-282-0959.
